“Beneath all the numbers and transaction activity, what makes IMAP unique is our commitment to our clients. Their growth stories, visions of the future and desire for success is a constant source of energy. This Dealbook is dedicated to those clients that consistently put their trust in us.”

Jurgis V. Oniunas
IMAP Chairman

September 19, 2024

As we publish a new edition of the IMAP Dealbook, the global economic environment continues to challenge the best of analysts. The start of 2024 was marked by improvements in market conditions, fading fears of a recession, and mounting investor confidence. However, since then momentum has generally stalled and the much-awaited surge in transaction activity has not materialized. And yet, while it may be tempting to get caught up analysing the ups and downs of macroeconomic trends and the future path of interest rates, IMAP advisors around the world continue to emphasize a vibrance within the mid-market dealmaking environment that is not captured in major headlines. Buyers may be more selective compared to recent years, but demand is still high for high-quality assets and targets with differentiated business models. Strong corporate profits, an aging owner base looking for exits, an ongoing move towards market efficiencies and consolidation, and the adoption of new technologies, will continue to drive activity going forward. Indeed, IMAP advisors are reporting a strong deal backlog and pipeline.

Today, IMAP continues to hold its position as one of the world's leading global M&A advisories focused solely on companies in the mid-market. A partner-driven, client-focused and independent partnership with more than 500 professionals across 60+ offices in 51 countries, we provide extensive local expertise and proven cross-border experience.

The following pages showcase IMAP deals closed between Q1 2023 and Q2 2024, representing our collective track record of delivering optimal M&A outcomes for our clients across a breadth of sectors and countries.

Beneath all the numbers and transaction activity, what makes IMAP unique is our commitment to our clients. Whether it be helping entrepreneurs achieve their dreams or institutional business owners reach their long-term goals, we strive to ensure that they continue to thrive in competitive and evolving economies. Their growth stories, visions of the future and desire for success is a constant source of energy. This Dealbook is dedicated to those clients that consistently put their trust in us.

Jurgis V. Oniunas
IMAP Chairman

An aerial photograph of rolling green hills under a twilight sky. The hills are covered in lush green grass, and several sheep are scattered across the slopes. A stone wall runs along the edge of a hill on the right, and a road is visible at the bottom of the frame. The lighting is soft and golden, suggesting the time is either dawn or dusk. In the top left corner, there are two thin, curved lines that appear to be part of a graphic design element.
